

PRO MARKER

AEROSOL SPOT MARKER

AEROSOL PAINT:

Promarker is a premium quality non-fluorescent aerosol site marker for universal marking. Available in a variety of colours, Promarker is ideal for all spot marking and marking-out purposes and has a safety cap with clog-free nozzle, which makes it ideal for use by surveyors and office-based staff. Both sizes can be applied using a variety of spray applicators.

PRODUCT FEATURES:

- Wide range of colours
- Non-block formulation
- Safety cap

CUSTOMER BENEFITS:

- Ideal for Utility markings
- Easy to use
- Prevents accidental discharge and damage when dropped

COLOURS AVAILABLE:

RECOMMENDED USE:

Highways

Airports

Facilities

Utilities

APPLICATION METHOD:

Sprayed

SURFACE PREPARATION:

Magma Promarker is designed as a short-life spot marker and as such is likely to be used on all kinds of surfaces. If applied in damp conditions, the markings will be very short-lived.

APPLICATION:

Apply manually by hand or by using Meon aerosol application equipment.

Before use: Shake the can vigorously upside down for approximately 2 minutes, to mix the paint thoroughly.

Spray, holding upside down, and apply at approx. 10cm from background for precise marking.

CURING:

Usually a maximum of 5-10 mins, depending on temperature

TECHNICAL:**PRACTICAL COVERAGE:**

500ml can: typically 2.2m²

750ml can: typically 3.3m²

AFTERCARE AND MAINTENANCE:

Use **Spectrum Type 2 thinners** or Aerosol thinners to clean uncured **Promarker** from tools and equipment.
