

# TARBUSTA™ W995

## WATER BASED BITUMEN STAIN REMOVER 500ML

### BITUMEN CLEANER:

TarBusta W995 Bitumen Stain Remover is professionals choice for the cleaning and removal of bituminous/tar materials effectively from kerb stones, white lines, walls, vehicles, plant equipment and tools; and doesn't leave any staining once rinsed with water. It is ideal for use as a heavy duty water based cleaner for removing mineral oil based problems such as bitumen, tar, asphalt, grease and carbons. It is completely safe on all metals, ceramics, concrete, brick, stone, glass, wood as well as painted surfaces.

### PRODUCT FEATURES:

- Water soluble
- Non-carcinogenic
- Easy to transport

### CUSTOMER BENEFITS:

- Bio-degradable
- Easy to use
- Fast acting
- Pleasant odour

### RECOMMENDED USE:

Car Parks

Highways

Utilities

### APPLICATION METHOD:

Sprayed

**BECAUSE ROADS MATTER™**

**APPLICATION:**

Apply **Magma TarBusta W995** Bitumen Stain Remover sparingly onto affected area, and allow it to soak into the contaminant. Where contaminant is heavier, using a brush (on porous materials) or a cloth (on smooth surfaces) to agitate the area will speed up the process without the need for additional applications.

This is best done through either the 500ml spray bottle it comes in or through a pressurised hand sprayer. Other conventional applications including bucket and brush are not advised as the product will be wasted and over use on kerbstones may cause issues with the asphalt pavement.

**STORAGE AND PACKAGING:**

Store in cool place. Keep container tightly closed in a dry and wellventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Protect from direct sunlight and extremes of temperature - i.e. between 5°C and 20°C.

**SHELF LIFE:**

Minimum 12 months when stored under cover, in original unopened containers, in accordance with Storage Condition guidelines listed above.

**SIZES AVAILABLE:**

Available in 500ml spray bottle.

**HEALTH AND SAFETY:**

Familiarise yourself with the material safety data sheets before using this product. If you need a copy please call our technical team on 023 9220 0606.
